GENAI PROMPT PLAYGROUND

GenAI Prompt Playground

Try any task, customize your RTCFR instructions, and generate a response with LangChain.

Task setup

Enter a task from any category. The safety
guardrail checks the request before generation.

Your prompt / task

Requirements:

- Include a mix of traditional Indian and simple international options.
- Prioritize balanced nutrition, protein, fiber, and whole foods.
- Include vegetarian options.

Preferred output format

Exactly five items

> Current RTCFR system prompt

Pipeline

1. Check the task with moderation
2. Build SystemMessage + HumanMessage
3. Generate with LangChain ChatOpenAI
4. Validate according to the selected format

Safety guardrail

Potentially harmful requests are
checked before generation.
Moderation is an automated signal,
not a guarantee of safety.

Generate response⇌ Compare responses (2 calls)

Generate uses 1 model call. Comparison intentionally uses 2 calls.

Done

Generated response

Run 1

1. Oats upma with mixed vegetables and a sprinkle of peanuts for added protein and crunch.
2. Moong dal chilla (savory lentil pancakes) served with mint chutney and a side of yogurt.
3. Greek yogurt parfait with fresh fruits, nuts, and a drizzle of honey for sweetness.
4. Poha (flattened rice) cooked with peas, carrots, and topped with coriander and lemon juice.
5. Whole grain toast with avocado, topped with sliced tomatoes and a sprinkle of salt and pepper.

Run 2

1. Oats upma with mixed vegetables and a sprinkle of peanuts for added protein and crunch.
2. Moong dal chilla (savory lentil pancakes) served with mint chutney and a side of yogurt.
3. Greek yogurt parfait with fresh fruits, nuts, and a drizzle of honey for sweetness.
4. Poha (flattened rice) cooked with peas, carrots, and topped with coriander and lemon juice.
5. Whole grain toast with avocado, topped with sliced tomatoes and a sprinkle of salt and pepper.

The two outputs matched exactly.
